► **The Local Government Chairman,**

**Akwa Local Government,
Anambra State.**

Dear sir,

Request for facilities of infrastructure

We the undersigned inhabitants of Akwa local government area are sincerely grateful for your work and achievement in our local government area and we say a very big thank you.

I should bring to your notice that we will be more grateful for your support if you provide us with some infrastructure which we need most and can barely live without it. Facilities like water, electricity, transportation etc. are our essential needs, without water many of us will suffer from some untold predicament, Electricity is not excluded too without it a lot of electrical appliances would fail to work and they will be a decline in economic and work efficiency in the local government.

I am sorry to have written at such length but I needed to put the entire matter to you and I hope that the matters presented to you through this letter will be address with urgency

Yours faithfully,

Miss Okolo Chiamaka
